

PRODUCT INFORMATION SHEET

Product Name: SYNTEGRA 80W140 GL5
SYNTHETIC LONG DRAIN GEAR LUBRICANT

Date Issued: 19th March 2007

PRODUCT

Prolube Syntegra 80W140 is an extreme heavy-duty multi-application driveline lubricant featuring full blend synthetic technology. It has been formulated for manual gearboxes, transfer cases and differentials including standard, limited slip and locking types. It provides outstanding gear, synchroniser and bearing lubrication as well as excellent cold flow and gearshift quality. In addition, there is the potential to significantly extend drain cycles.

APPLICATION

This oil is designed for most automotive, transport and heavy equipment gear applications subject to equipment manufacturers' recommendations. It has been specifically designed for severe service high-heat, high-load and constant running commercial situations.

STANDARDS

Meets or exceeds the following:

SAE Grade: 80W140
API: GL5

CONTAINER SIZES

205 Litres,

20 Litres.
