

## **PRODUCT DATA SHEET**

# **PETROLEUM JELLY**

A background image showing a close-up of an engine's internal components, including pistons, valves, and a timing belt, rendered in a semi-transparent, light blue and yellow color scheme.

## **DESCRIPTION**

Petroleum Jelly is a highly refined white petrolatum that meets the purity standards of the latest issues of the United States Pharmacopoeia (USP) and British Pharmacopoeia (BP). It is a white translucent gel.

Melting Point	50 - 55 °C	Typ 53 °C
Congealing Point	48 - 52°C	
Viscosity	5.8 - 6.5 cSt @ 100°C	Typ 6.2 °C

## **APPLICATION**

Petroleum Jelly is used as a base for cosmetics, as a skin conditioner and in cosmetics. It can also be used as a softening agent in some printing inks, as a rubber plasticiser and in leather processing. In industry it can be used as a light duty lubricant, as rust preventive and is an effective water repellent. It is also used to prevent corrosion on battery terminals.

## **STANDARDS**

Petroleum Jelly is manufactured in compliance with USP 31, BP2008, IP2007 and also conforms to the requirements of US FDA 21CFR 172.880.

## **CONTAINER SIZES**

20 kg, 2.5 kg

Issue Date 1/9/2019

*Proven Protection. Powerful Performance.*
