

PRODUCT DATA SHEET

PROCUT

(NEAT CUTTING FLUID)

A background image showing a close-up of a metal cutting process, likely a lathe or mill, with a hand visible near the workpiece. The image is faded and serves as a background for the product information.

DESCRIPTION

Procut is a heavy-duty straight cutting oil that is blended from highly refined base oils and sulphur and chlorinated wax-type extreme pressure additives. The additives ensure excellent surface finish to machined components and prolonged cutting tool life. It is non staining with excellent rust inhibiting properties and provides good surface finishes.

Viscosity - Typical 75 cSt @ 40°C

APPLICATION

Procut can be used for medium and difficult machining of ferrous metals – heavy duty automatic machining, milling, broaching, gear cutting, hobbing, forming cold heading. It is usually used neat for heavy machining but can be diluted with light oil for lighter duty machining operations.

CONTAINER SIZES

1000 Litres IBC, 205 Litres, 20 Litres, 5 Litres

Issue Date 1/9/2019

Proven Protection. Powerful Performance.
