

## **PRODUCT INFORMATION SHEET**

**Product Name:                    TRANSTEC SAE 10W CF**

### **PRODUCT**

Prolube Transtec 10W is a monograde oil originally developed to meet the Caterpillar Series 3 requirements. It contains a quality detergent dispersant additive pack to keep systems clean and to prevent sludge and varnish.

Viscosity	Typical 6.9 cSt @ 100°C
Zinc Content	900 ppm wt typical

### **APPLICATION**

Designed for hydraulic systems where a low viscosity monograde SAE 10W oil is specified or indicated. The normal use for this oil is in the hydraulic systems of mobile plant where a high detergent oil with zinc antiwear is specified.

### **STANDARDS**

Meets or exceeds the following:

SAE Grade:   10W

API:            CF

### **CONTAINER SIZES**

205 Litres,

20 Litres.
