

PRODUCT DATA SHEET

AGTRANS TTF

DESCRIPTION

Agtrans TTF is a high performance Tractor Transmission and Hydraulic Fluid, blended to meet the requirements of most modern Tractors and is suitable for application where manufacturers specify a Tractor Transmission Fluid. Agtrans TTF also provides excellent frictional characteristics necessary to eliminate brake chatter or squawk in wet brakes.

Agtrans TTF has the added bonus of a corrosion inhibition package to coat and protect internal metal surfaces in periods of shut down such as between seasons.

Viscosity - Typical 10.5 cSt @ 100°C

APPLICATION

This fluid is designed for use in tractors requiring a common lubricant for transmission, final drive, hydraulics and wet brakes. It has been formulated for temperate to hot conditions where sustained thermal stability is essential.
