

PRODUCT DATA SHEET

MONOTEC GMX CF2 Series

DESCRIPTION

Prolube Monotec GMX series are monograde oils developed specifically for General Motors two-stroke Detroit Diesel Engines.

APPLICATION

Developed for General Motors 2-stroke Detroit Diesel Engines and suitable for use in naturally aspirated diesel engines, petrol engines and hydraulics of earthmoving equipment working under particularly hot conditions.

In typical applications, the SAE 50 grade is recommended for the 149 series engines, and the SAE 40 grade for all other models.

STANDARDS

Meets or exceeds the following:

SAE Grade:	40	50
API:	CF, CF-2, SG	CF, CF-2, SG
Viscosity (Typical) - cSt @ 100°C	15.5	19.0
- cSt @ 40°C	144	195

CONTAINER SIZES

Bulk, 1000 Litres IBC, 205 Litres, 20 Litres (grade dependent)

Issue Date 24/1/22
