

## SAFETY DATA SHEET

*compiled according to Safe Work Australia and the GHS*

Revision Date: 30-Aug-16

Printed: 17-Nov-16 5:32 PM

Page 1 of 7

### 1. IDENTIFICATION

<b>Product Identifier</b>	<b>PROFLUSH</b>
<b>Product Code</b>	1425
<b>Other Means of Identification</b>	Automotive Radiator Cleaner
<b>Recommended Use of the Chemical and Restriction on Use</b>	Automotive radiator system flush and descaler concentrate
<b>Details of Manufacturer or Importer</b>	Lidomont Pty. Ltd., trading as Prolube Lubricants 15 Pinnacle Street, Brendale, Queensland, 4500
<b>Phone</b>	07 3881 1733 (+61 7 38811733 – International)
<b>Emergency Telephone</b>	000 (Australia Only)
<b>Poisons Information Centre Phone</b>	13 11 26

### 2. HAZARDS IDENTIFICATION

<b>Physical Hazard(s)</b>	Classified as Hazardous according to Globally Harmonised System of Classification and Labelling of Chemicals (GHS) and Safe Work Australia criteria. Not Classified as Dangerous Goods according to the Australian Code for the Transport of Dangerous Goods by Road and Rail. (7th edition)
<b>Health Hazard(s)</b>	Skin Corrosion Category 1A
<b>Environment Hazard(s)</b>	
<b>GHS Label Elements</b>	
<b>Signal Word</b>	<b>DANGER</b>

**Hazard Statement(s)**

**H314** Causes severe skin burns and eye damage.

**Precautionary Statement(s): General**

- P101** If medical advice is needed, have product container or label at hand
- P102** Keep out of reach of children
- P103** Read label before use

**Precautionary Statement(s): Prevention**

- P260** Do not breath dust/fume/gas/mist/vapour/spray.
- P264** Wash thoroughly after handling.
- P280** Wear protective gloves/eye protection/face protection.

**Precautionary Statement(s): Response**

- P301+P330+P331** If SWALLOWED: Rinse mouth. Do NOT induce vomiting.
- P303+P361+P353** If ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower.
- P304+P340** If INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing.

## SAFETY DATA SHEET

compiled according to Safe Work Australia and the GHS

Page 2 of 7

Product Identifier: PROFLUSH

- P305+P351+P338** If IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
- P310** Immediately call a POISON CENTER or doctor/physician.
- P321** Specific treatment – see label.
- P363** Wash contaminated clothing before reuse.

### Precautionary Statement(s): Storage

- P405** Store locked up.

### Precautionary Statement(s): Disposal

- P501** Dispose of contents/container as hazardous waste in accordance with local regulations.

## 3. COMPOSITION AND INFORMATION ON INGREDIENTS

Component	CAS Number	Concentration
Sodium Hydroxide	1310-73-2	<2%
Ingredients determined not to be hazardous including water		to 100%

## 4. FIRST AID MEASURES

### Inhalation

If inhaled, remove affected person from contaminated area. Keep at rest until recovered. If symptoms persist seek medical attention.

### Skin contact

Wash contact areas with soap and water. Remove contaminated clothing. Launder contaminated clothing before reuse. If product is injected into or under the skin, or into any part of the body, regardless of the appearance of the wound or its size, the individual should be evaluated immediately by a physician as a surgical emergency. Even though initial symptoms from high pressure injection may be minimal or absent, early surgical treatment within the first few hours may significantly reduce the ultimate extent of injury.

### Eye contact

If in eyes, hold eyelids apart and flush the eyes continuously with running water. Continue flushing for several minutes until all contaminants are washed out completely. Seek medical attention.

### Ingestion

Do not induce vomiting. Wash out mouth thoroughly with water. If symptoms develop seek medical attention.

**Advice to Doctor:** Treat symptomatically.

## 5. FIRE FIGHTING MEASURES

### Suitable extinguishing equipment

Use water spray, foam, carbon dioxide or dry chemical powder.

## SAFETY DATA SHEET

compiled according to Safe Work Australia and the GHS

Page 3 of 7

Product Identifier: PROFLUSH

### ***Specific hazards arising from the chemical***

Under fire conditions this product may emit toxic and/or irritating fumes and gases including oxides of carbon, phosphorus and nitrogen.

### ***Special protective equipment and precautions for firefighters***

Fire fighters should wear Self- Contained Breathing Apparatus (SCBA) operated in positive pressure mode and full protective clothing to prevent exposure to vapours or fumes. Water spray may be used to cool down heat- exposed containers.

## 6. ACCIDENTAL RELEASE MEASURES

### ***Personal precautions, protective equipment and emergency procedures***

Wear Safe Work Australia approved respiratory protection, chemical resistant gloves, protective clothing and safety boots. Evacuate all non-essential personnel from affected area. Do not breathe vapours. Ensure adequate ventilation. Extinguish all sources of ignition. Avoid sparks and open flames. No smoking.

### ***Environmental precautions***

In the event of a major spill, prevent spillage from entering drains or water courses.

### ***Methods and materials for Containment and cleaning up***

Stop leak if safe to do so and absorb spill with sand, earth, vermiculite or some other absorbent material. Collect the spilled material and place into a suitable container for disposal.

## 7. HANDLING AND STORAGE

### ***Precautions for safe handling***

Use appropriate personal protective equipment – see Section 8. Use safe work processes to avoid eye or skin contact and inhalation of vapours. Use only in well ventilated areas. Do not store in contact with food, beverages or tobacco products. Eating drinking or smoking in areas where this product is stored or processed should be prohibited. Always wash thoroughly after handling. Wash contaminated clothing and other protective equipment before storage or reuse. Provide eyewash fountains and safety showers in close proximity to points of use.

### ***Conditions for safe storage***

Store in accordance with local regulations in a cool, dry and well ventilated area. Store in original container tightly closed and away from incompatible materials (see Section 10). Check regularly for leaks and physical damage. Opened containers should be carefully resealed and stored in an upright position. Empty containers may contain residues and be dangerous. Store and use only in equipment designed for use with this type of product. Use appropriate bunding or containment to prevent environmental contamination.

## 8. EXPOSURE CONTROLS AND PERSONAL PROTECTION

### ***Exposure control measures***

No exposure standards have been established for this material by Safe Work, Australia.

### ***Engineering controls***

Engineering controls should be in place as a primary source of protection over the use of Personal Protective Equipment. Ensure adequate ventilation of the working area or provide exhaust ventilation to keep the relevant airborne concentrations below acceptable levels.

## SAFETY DATA SHEET

*compiled according to Safe Work Australia and the GHS*

Page 4 of 7

Product Identifier: PROFLUSH

### **Individual protection measures**

Personal protective equipment selections vary based on potential exposure conditions such as applications, handling practices, concentration and ventilation. Information on the selection of protective equipment for use with this material, as provided below, is based upon intended, normal usage.

**Eye and face protection:** If contact is likely, safety glasses with side shields are recommended.

**Skin protection:** Any specific glove information provided is based on published literature and glove manufacturer data. Glove suitability and breakthrough time will differ depending on the specific use conditions. Contact the glove manufacturer for specific advice on glove selection and breakthrough times for your use conditions. Inspect and replace worn or damaged gloves. The types of gloves to be considered for this material include chemical resistant, nitrile or viton. Long sleeve and long pants will provide protection.

**Respiratory protection:** If engineering controls do not maintain airborne contaminant concentrations at a level which is adequate to protect worker health, an approved respirator may be appropriate. Respirator selection, use, and maintenance must be in accordance with regulatory requirements, if applicable. A particulate type respirator should be considered for this material. No special requirements under ordinary conditions of use and with adequate ventilation. For high airborne concentrations, use an approved supplied-air respirator, operated in positive pressure mode. Supplied air respirators with an escape bottle may be appropriate when oxygen levels are inadequate, gas/vapour warning properties are poor, or if air purifying filter capacity/rating may be exceeded.

**Specific Hygiene Measures:** Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Discard contaminated clothing and footwear that cannot be cleaned. Practise good housekeeping.

### **9. PHYSICAL AND CHEMICAL PROPERTIES**

<b>Appearance: Form</b>	Clear liquid
<b>Colour</b>	Colourless
<b>Odour</b>	Slight
<b>Odour Threshold</b>	Not determined
<b>pH-Value</b>	11 - 13
<b>Melting point/Melting range</b>	No information available
<b>Initial Boiling Point/Boiling Range</b>	No information available
<b>Flash Point</b>	No information available
<b>Flammability</b>	Non-flammable, non-combustible
<b>Auto-ignition Temperature</b>	No information available
<b>Decomposition Temperature</b>	No information available
<b>Explosion Limits: Lower</b>	Not applicable
<b>Upper</b>	Not applicable
<b>Vapour Pressure at 20 °C</b>	No information available
<b>Relative Density at 15 °C</b>	1.00 – 1.02
<b>Vapour Density</b>	No information available
<b>Evaporation Rate</b>	Not applicable
<b>Solubility in Water</b>	Soluble
<b>Viscosity at 40 °C</b>	~1 cSt (Water)

## SAFETY DATA SHEET

### 10. STABILITY AND REACTIVITY

**Reactivity:** Will not occur.

**Chemical stability:** Stable at ambient temperature and under normal conditions of use.

**Possibility of hazardous reactions:** Hazardous polymerization will not occur.

**Conditions to avoid:** Excessive heat. Direct sunlight.

**Incompatible materials:** Strong acids and oxidisers.

**Hazardous decomposition products:** Thermal decomposition may result in the release of toxic and/or irritating fumes including carbon dioxide and oxides of phosphorus and nitrogen.

### 11. TOXICOLOGICAL INFORMATION

<b>Acute Toxicity: LD50/LC50 values relevant</b>	
<i>Oral LD 50</i>	Not available
<i>Dermal LD50</i>	Not available
<i>Inhalation LC50</i>	Not available
<b>Acute Health Effects</b>	
<i>Inhalation</i>	Inhalation of product vapours may cause irritation of the nose, throat and respiratory system.
<i>Skin</i>	Causes skin irritation. Skin contact will cause redness, itching and swelling. Repeated exposure may cause skin dryness and cracking and may lead to dermatitis.
<i>Eye</i>	Causes serious eye irritation. On eye contact this product will cause tearing, stinging, blurred vision, and redness.
<i>Ingestion</i>	Ingestion of this product may irritate the gastric tract causing nausea and vomiting.
<b>Skin Corrosion / Irritation</b>	Causes severe skin burns.
<b>Serious Eye Damage / Irritation</b>	Causes eye damage.
<b>Respiratory or Skin Sensitisation</b>	Based on classification principles, the classification criteria are not met
<b>Germ Cell Mutagenicity</b>	Based on classification principles, the classification criteria are not met
<b>Carcinogenicity</b>	Not considered to be a carcinogenic hazard.
<b>Reproductive Toxicity</b>	Based on classification principles, the classification criteria are not met
<b>Specific Target Organ Toxicity (STOT) -</b>	
<i>Single Exposure</i>	Based on classification principles, the classification criteria are not met
<i>Repeated Exposure</i>	Based on classification principles, the classification criteria are not met
<b>Aspiration Hazard</b>	Based on classification principles, the classification criteria are not met
<b>Chronic Health Effects</b>	No information available
<b>Existing Conditions Aggravated by Exposure</b>	No information available

### 12. ECOLOGICAL INFORMATION

**Ecotoxicity:** The product is moderately alkaline. If large spills occurred a water pH rise could be responsible for an environmental effect on aquatic organisms. Prevent this material entering waterways, drains and sewers.

## SAFETY DATA SHEET

compiled according to Safe Work Australia and the GHS

Page 6 of 7

Product Identifier: PROFLUSH

**Persistence and degradability:** Surfactants are not considered to be readily biodegradable to AS4351.

**Bioaccumulative Potential:** Limited potential for bioaccumulation.

**Mobility in soil:** No information available.

### 13. DISPOSAL CONSIDERATIONS

#### **Disposal method and Containers**

Dispose according to applicable local and state government regulations.

Empty containers may contain residue and can be dangerous. Packaging should be recycled and disposal via incineration or landfill should only be considered when recycling not possible. Do not pressurize, cut, weld, braze, solder, drill grind or expose such containers to heat, flame, sparks, static electricity, or other sources of ignition. They may explode and cause injury or death.

#### **Special precautions for incineration or landfill**

Consult your state Land Waste Management Authority for more information. .

### 14. TRANSPORT INFORMATION

	Australian Dangerous Goods (ADG)	International Maritime Dangerous Goods (IMDG)	International Air Transport Association (IATA)
<b>UN Number</b>	Not regulated	Not regulated	Not regulated
<b>UN Proper Shipping Name</b>	n/a	n/a	n/a
<b>Dangerous Goods Class</b>	n/a	n/a	n/a
<b>Packing Group</b>	n/a	n/a	n/a

#### **Special precautions for user**

None Available

### 15. REGULATORY INFORMATION

#### **Standard for the Uniform Scheduling of Drugs and Poisons (SUSMP) – Poison Schedule**

S5

#### **Australian Inventory of Chemical Substances (AICS)**

All components are listed or exempt

#### **Classified as hazardous according to criteria of NOHSC**

Irritant.

### 16. OTHER INFORMATION

**Creation Date** 30/08/2016

Prepared by Lidomont Pty Ltd, 15 Pinnacle St Brendale QLD

#### **Revision information**

Date and Changes: none

### **Abbreviations Used**

GHS, Globally Harmonised System of Classification and labelling of Chemicals

CAS, Chemical Abstracts Service (Division of American Chemical Society)

LC50, Lethal concentration 50%

LD50, Lethal dose 50%

STEL, Short Term Exposure Limit

TWA, Time Weighted Average

UN, United Nations

n/a, not applicable

### **Disclaimer**

This SDS is prepared in accord with the Safe Work Australia document "Code of practice for the Preparation of Safety Data Sheets for Hazardous Chemicals – December 2011. The information and recommendations contained herein are, to the best of Prolube's knowledge and belief, accurate and reliable as of the date issued. No warranty or representation, express or implied is made as to the accuracy or completeness of the data and information in this data sheet. You can contact Prolube to insure that this document is the most current available from Prolube. The information and recommendations are offered for the user's consideration and examination. It is the user's responsibility to satisfy itself that the product is suitable for the intended use. If buyer repackages this product, it is the user's responsibility to insure proper health, safety and other necessary information is included with and/or on the container. Appropriate warnings and safe-handling procedures should be provided to handlers and users.
