

PRODUCT DATA SHEET

HYPLEX BIOGEN Series **(BIODEGRADABLE HYDRAULIC OIL)**

DESCRIPTION

HYPLEX BIOGEN Series are a vegetable plant based hydraulic oil blended with a thermally stable ashless additive package, which inhibits oxidation, protects bearings from corrosion and prevents wear. Hyplex BIOGEN provides excellent performance in extremes of temperature and working conditions.

Hyplex Biogen is 90-95% biodegradable over a 30 day period. The naturally high viscosity index of these products provides a wide viscosity range, making them universal replacements in a variety of equipment.

APPLICATION

Use in the majority of hydraulic systems in earthmoving equipment, machine tools, forklifts, presses, rams and extruders. Hyplex Biogen is of a particular advantage when used in Environmentally sensitive areas, such as in construction and earthmoving around waterways.

Due to its natural base and its wide viscosity range this oil is ideal for use in a variety of machines. This product is compatible with mineral based hydraulic oils allowing for system change without requiring a full flush.
