

PRODUCT DATA SHEET

HEAVY DUTY AQUEOUS DEGREASER

DESCRIPTION

Heavy Duty Aqueous Degreaser is a high alkaline odourless non-flammable bio-degradable degreaser. This product is ideal for domestic or commercial use and is ideal for removing dirt and grease build up from metal surfaces, including those in contact with food. A unique combination of surfactants, chelating agents, alkaline salts and water soluble solvents blended to give a cleaner with outstanding power whilst minimizing environmental impacts and maintaining "Quick Break" capacity.

APPLICATION

Ideal for use in housekeeping, restaurants and all areas of the hospitality industry, as well as machinery repair workshop environments. Prolube HDA Degreaser is also excellent as a hard surface cleaner and sanitizer for kitchens, bathrooms and toilet areas and stainless steel. Do not use on reactive metals such as aluminium. Apply by brush or spray and agitate on heavy soiled areas for best results.
