

## PRODUCT DATA SHEET

# AIR TOOL OIL SERIES

## DESCRIPTION

Air Tool Oil Series products are blended from virgin base stocks with a high performance rust preventive and antiwear additive package to extend the life of all pneumatic tools. The lubricant is specially designed to breakdown gums and to prevent foaming and misting and will prevent premature wear and improve the tool performance.

<b>Grade</b>	<b>10</b>	<b>15</b>	<b>22</b>	<b>32</b>
Viscosity (cSt @ 40°C Typ)	10	15	22	32
Viscosity (cSt @ 100°C)	2.7	3.5	4,4	5.5

## APPLICATION

Prolube Air Tool Oil is recommended for all pneumatic tools from heavy duty drills to small hand tools. The oil should be applied by directly pouring into the tool in accord with the manufacturer's directions or by adding to an inline lubricator. These products are ideally suited to large industrial applications where many air operated units are supplied from a central air supply and lubricator.

## CONTAINER SIZES

205 Litres, 20 Litres, 5 Litres  
(Some grades are not available in all sizes)
