

## PRODUCT DATA SHEET

# PROSTOP SUPER DOT4

## (PREMIUM ABS COMPATIBLE DISC BRAKE FLUID)

### DESCRIPTION

Prostop Super DOT 4 Disc Brake Fluid is a superior quality fluid for use in modern disc brake systems and is ideal for the latest ABS and electronic AEB systems which require a lower viscosity product to give the rapid response times required in extreme conditions.

The fluid has a very high boiling point, excellent resistance to moisture absorption and is compatible with all metals and seals typically used in braking systems. Prostop Super DOT 4 provides superior safety against vapour lock at high temperatures and provides highly effective corrosion resistance.

### APPLICATION

Formulated for modern automotive disc brake systems, ABS brake systems and hydraulically actuated clutch systems. Prostop Super DOT 4 is suitable for BMW, Mercedes Benz, Audi, VW and several other European brands.

### STANDARDS

Meets or exceeds the following:

AS/NZS.1960.1-2005 GRADE 3

SAE J1704

FMVSS No. 116 DOT 4

ISO 4925 Class 6

MAN TUC 6518/07

### PROPERTIES

Appearance: Yellow Liquid

ER Boiling Point °C: 280 - 285

Wet ER Boiling Point °C: 165 Min

Viscosity at -40°C: 750 cSt Max

### CONTAINER SIZES

5 Litres, 500 ml

Issue Date 1/10/20
